

Cat5 Power Extractor Module 802.3af compliant

A solution to most POE problems

This unique power extractor module:

1. Can deliver regulated DC power for any secondary device that is not POE capable.
2. Would allow multiple POE devices run over single power over Ethernet.
3. Can take DC voltage over wide range: 12V to 60V DC.
4. Delivers regulated DC output at any desired level. e.g. 6V, 9V, 12V etc.

Item # 99101

This Cat5 power extractor module is designed to work with 802.3af compliant products. The 2Amp power rating allows the use of multiple products on single POE. The unit can be adjusted for any DC output up to 18V.

Specifications

DC input	12V ~ 60 V DC
Output	Available in 5V, 6V, 7.5V, 9V, 12V, 15V and 18V DC version
Max Current	2 Amps
Pin Layout	Pin 4 & 5 for power Pin 7 & 8 for ground
DC Jack	2.5mm, center pin positive
LED indicators	Green LED for power
Operating Temp	-40 °C to + 70 °C
Dimension	2" x 2" x 0.8" (height)
Weight	1.1 Oz
